Potomac Valley Skiers, Inc.
WASHINGTON MARYLAND VIRGINIA

JUNE 2004

Fellow PVSers:

In my message to you last month, I recognized the outstanding contributions being made by those who serve as members of the PVS Executive Committee, and those who serve in officer positions. There are two additional people who should be recognized as well; Sara Huggins and Marvin Haas. Sara keeps the books and the money count at each of our monthly meetings thereby helping to maintain our treasury in a healthy state. Marvin is our information technologist par excellence. Marvin has been highly instrumental in bringing PVS into the electronic age and he established and manages our Website. Marvin also serves as Toot editor during the summer months when Jan is far away from Washington at her Minnesota lake cabin.

I would like to ask for your help with two things: First, we always need help finding people to host our membership meetings and our ExCom meetings. Very little preparation is required and you get the benefit of doing something good for your club. Your assistance would be greatly appreciated. Second, your Program Planning Committee has come up with terrific ideas for non-ski activities based on what you, the members asked for in response to last year's survey. What we currently lack are people stepping forth to organize these activities. Please give David Abraham a call to volunteer a small portion of your time to put together a fun event.

Have a great summer.

A brief report on events at the BRSC meeting on May 15, 2004

Bob Marx, Glade Flake, David Lerner, and Charles Huggins represented PVS.

BRSC's 2005 Western Carnival will be run Feb. 4 to 12, 2005 in Breckenridge, CO, and the price will vary from \$1200 to \$1300 depending on the lodging chosen. PVS is not participating in the Breckenridge trip, but our members are free to join another club for this trip. (Kitty Imdahl of the Columbia Ski Club would be delighted to see any of her former PVS friends join them on the Breckenridge trip.) For various reasons (high cost and potential financial problems of the selected vendor), the BRSC voted to cancel its EuroFest 2005. David Lerner, the approved leader of the PVS contingent, is gathering bids for a "pure PVS" trip to Meribel instead -- see announcement elsewhere.

The BRSC 2006 Western Carnival trip will be to Sun Valley in early February and the 2006 EuroFest will be to Val Gardena, Italy in early March. The 2007 Western Carnival will go to Big Sky, MT and Glade joined a committee to select a destination for the 2007 EuroFest.

ECLIPSE CHAMBER ORCHESTRA

THE SEASON'S LAST HURRAY

There must have been 20 of us in that capacity crowd, filling the beautiful Bradley Hills Presbyterian Church. It was a gorgeous day, the manicured grounds lush with their spring-time greenery, and a concert which surpassed in several respects even the writer's ambitious expectations. Music Director and Conductor Sylvia Alimena, and her fellow National Symphony Orchestra colleagues responded in a most laudatory manner to the audience's write-ins for "As You Like It." There was Dvorak's Serenade for Strings, beautifully played by 18 of the NSO's best, and then the not so frequently heard but equally gorgeous Handel's Overture to Berenice. As Maestra Alimena noted in her introductory remarks, she chose this piece as a combination between the audience's request for something baroque and something Handel. And what a superb choice this was. As Joe McLellan noted in his always fair and insightful review, she managed to slip an unfamiliar masterpiece in with the familiar ones, giving the program a refreshing novelty to balance its welcome déjà vu.

The piece de resistance, if I may call it such, was a special gift for the orchestra's loyal audience: Mozart's Symphonia Concertante for Violin and Viola, played by two outstanding members of this superb group. As all of the PVSers I got a chance to speak with after this very rewarding experience stated; this was just wonderful. Indeed, Joe got it right when he wrote "the performances throughout were vigorous, lyrically phrased, transparent in sound, and rich in texture. Alimena paced the performances beautifully."

Too bad we now must wait for next season, which will start in the fall, in a new, perhaps even more suitable venue. The Bradley Hills auditorium does not facilitate use of a piano. We'll make sure Toot readers will be timely informed of that new season, and hopefully many will make a subscription for and attendance of all Eclipse concerts a permanent part of their cultural enjoyments. If you haven't heard them as yet, it's worth taking a chance. They really are very good, always have interesting programs, all at a bargain price.

May Meeting at Vigonis'

PVS members filled Pat and _____ beautiful home with its elegant and welcoming décor. Friends wandered freely from room to room to room to deck and back again. Enjoying recent gossip, tales and tasty comestibles. Everyone was welcome, including the neighbor's dog who wandered in and out with the Vigonis' dog as people were arriving. President Reg conducted an efficient and informative meeting at which time we learned about an array of interesting and fun activities scheduled during the next three months, along with ski trips planned for the coming season. Luckily the rain held off until it was time to go home. Jack Peoples gallantly ran an umbrella escort service to the cars.

The group managed to dodge the thunderstorms and the bicycle ride went well. Fifteen participants, five of whom were from PVS showed up at this event which included a bicycle ride along Chesapeake Bay followed by lunch with cake and champagne in honor of Betty Byrne's 71st (photo of Betty and Marvin). Charles and Sara Huggins [joined us for lunch only].

Ski Trips

The best of summer-skiing still has space for you PORTILLO, CHILE AUGUST 6 TO 15, 2004

If you've been procrastinating, there's just a little bit more time to make your move. A few spaces are available on this dream-of-a-lifetime-trip. If you need to refresh your awareness of the details take a look at the flyer in the May Toot or call David Abraham (301 530-7612 or dq3abraham@earthlink.net) for another copy. Delta Airlines flights from any of the area's airports (or for that matter any other airport) leave on Friday evening for a connection at Atlanta to a non-stop flight to Santiago. The return is on Sunday morning, 8-15, unless the optional extra day for Santiago sightseeing is chosen. Only 5 workdays are involved.

With virtually every normal expense covered, including 4 daily meals, the package price of \$2,495 is a real bargain. The elegant Hotel Portillo offers a plethora of amenities, and there's great skiing and riding for all levels of skiers and borders.

Sun Peaks

Three Mountains - One Village

We continue to look for places that PVS will love and haven't been to a dozen times. We've found a true gem, Sun Peaks, Canada--known for its sun. Yes, the sun shines at Sun Peaks. And shines. And shines--more sunny hours than any resort in North America! That sun, combined with 220" of snow and an average mid-winter temperature of 20 to 25 degrees F, make Sun Peaks a favorite for fair weather ski holidays. You can test your mettle on black diamond screamers. You can kick back on cruising blue runs. Or you can take your time on a five-mile green cleverly called 5 Mile! Sun Peaks is a pedestrian only village, so everything is easy to access.

Access is a piece of cake! We fly from Reagan National on Alaska Air non-stop to Seattle, leaving at a civilized 9 am. A brief layover to switch flights gets us to Kamloops, and to the resort, by 2:30 pm. Wow! We are currently examining several potential ski-in ski-out, luxury accommodations.

Sun Peaks has 3678 acres, a vertical of 2,891 feet, 87 runs, 10 lifts including 3 high speed quads and a charming, Tyrolean-style car free village that twinkles under the alpine starlight. Sun Peaks skis like Whistler. It's huge! But, unlike Whistler, it has no coastal rain or fog! And great restaurants are everywhere. For non-skiers, there is oodles to do including; sleigh rides, gallery hopping, snowmobiling, snowshoeing, back country snow cat adventures, 30 mi Nordic skiing, a new tube park, sports center, and dog sledding. Aside from air, lodging and lifts, Our trip also includes 3 dinners, happy hours, pre & post trip parties, bus & bellman tips, etc. Price \$1,725-\$1,900, dependent on our lodging.

This year due to air schedules we have only 28 spaces. To reserve, send your check for \$250 per person payable to Ray McKinley (refundable through July when prices will be firm) and send it to McKinley's, 2326 N Upton Street, Arlington, VA 22207-4045. Please call us for lots more information at (703) 527-7126.

Meribel, France - March 4-13, 2005

The Meribel trip started off as the BRSC EuroFest 2005. BRSC has dropped the trip but we, at PVS, will now do our own thing. The result is going to be a better trip at a lower price.

Meribel is one of the premier resorts of Europe offering an outstanding combination of varied terrain, easy access, and an attractive town. It has been called the Snowmass of France. Meribel is at the center of Les Trois Vallées which boasts 200 lifts and 375 miles of downhill ski runs. Meribel alone, has 14 gondolas, 4 high-speed chair lifts, 13 conventional chairlifts, and 14 pomalifts. The surrounding valleys are accessible by ski lifts (no buses required).

We will be leaving from Dulles on Friday, March 4 and staying in Meribel for 7 nights. We will be transferring to a gateway city (to be determined) on March 12 for an additional night with a return to Dulles on Sunday, March 13. Trip cost will be about \$1,800 which will include air fare, transfers, departure tax, hotel rooms for 8 nights, 7 dinners, 8 breakfasts and more. Lift tickets (not included) will depend on age with free skiing for those 72 or over. Competing bids were still being reviewed at the time of writing. Call Dave Lerner at 703-281-6923 for final details.

(Less than **\$1,000** if you want the "land only" package!) The trip will fly in and out of **Reno, NV** via United Airlines and use motor coach to/from Mammoth. (Bonus: Check United Airline's offer: You will have 1/2 the credit for a US-RT www.united.com/goaroundtheworld)

The mountain has:—vertical drop =3,100 feet; base elevation =7,900 feet; top elevation =11,000 feet; average snowfall =385"; average sunny days =300; 25 lifts + 2 gondolas (8:30-4:00); 30% advanced; 40% intermediate; 30% beginner. **Spring conditions are in May and June - NOT March.**

THE KNEE

By Ray McKinley

Another day goes by, another week, another month. Now the entire ski season is gone, and many of us are contemplating next season's ski trips. Can it be possible? The world simply whizzes by. Albert Einstein understood it. Time is relative (not like your mother-in-law). The older you get the faster time moves (also not like your mother-in-law). Recently, rather than "May," I dated a check "April." But it was April, 2002!

Moving on, the longest day of the year is June 22. Then it's all down hill (to coin a phrase) to winter. But patience is essential. After all, nine women can't make a baby in one month.

Time to update you on two of last months' Knee items. First, and most important, the PVS time capsule. As you recall, it's a *faux* plastic—but really metal—box, looking a bit like your standard *faux* plastic—but really metal boot bag. It had been sealed, by George Hicho, with scotch tape. At the Annual Meeting at the Leonhardt's the capsule was lost and then found. The attempt to impeach Pres. Reg Heitchue was cancelled, and Reg refound his troth. The *faux* plastic—but really metal—Time Capsule was turned over to Club Historian Janet Marx where it remains safely at the Marx' with the remainder of the PVS archives. It will be opened in 2020—how visionary! All is right with the world.

And now a PS (that stands for Potty Script) on the "tail" of Fred Leonhardt's toilet. As you recall, after "doing your thing," it squirts you with hot water and then dries you with warm air. Hence, TP isn't necessary. We have a live testimonial (which is much better than a dead testimonial)—from Myron Marquardt. He has used the toilet in Japan. "It's kneat, you don't need toilet paper." However, Myron also notes that two of his male Japankneese friends are now sopranos. It's true! The Knee would never kid you. No shi_!

Gingerly sidestepping away from any

more bathroom humor (urine good hands as usual), the Knee has other news.

Eloise and Mike Strand are just back from a lengthy trip to South Africa. They had a ball—and some great South African wine, but 18 hour return flights do breed a tad of jet lag. Thus, it was a somewhat bleary-eyed Mike at the recent ExCom. But he did, somewhat successfully, second the motion to adjourn.

Bob and Janet Marx have bought a new car—sort of. It's really an extended, 15 passenger van. They plan to remove some of the seats and put in a bed, a refrigerator, and a toilet! Perhaps next they will put in a bowling alley...

It's B & B time! That means Bekeys and Brunellis. Both Bs are back from combination business trips and vacations. Ivan and Marlene Bekey's was to Paris following Ivan's business. John and Polly did two. The first to the Hague, the second to Costa Rica and Brazil

A tip of the oi' Knee Cap to Don Dillon. He just had a seminal birthday. I won't tell you Don's age, but he can now vote—seven times!

PVS goes (actually "went") to the opera! We had an unorganized, but significant group at the Washington Concert Opera's recent, sold-out performance of Rossini's "The Lady of the Lake." The Abrahams, the Brunellis, the Knopes, the McKinleys and Jackie Rosen all enjoyed the superb performance.

Serge and Liz Triau are beaching it at Myrtle's. There they expect to golf with Fred and Barbara Leonhardt. (If they can pull Fred off of his toilet!) Thereafter Serge and Liz head off for two weeks in Ireland. They fly to Dublin and drive on the wrong side for two weeks before departing from Shannon.

Octogenarian Charlie Gordon will be leaving Texas later this month for some bicycling and barging in Holland. Dutch treat, Charlie?

Latest skiing by a PVSer: So far the trophy goes to applicant member, Dave Leonard. From May 8-15 Dave skied in a family friendly local area, Hintertrask, Austria. The Knee has never heard of this area, but apparently it has a series of glaciers considerably larger than Ski Liberty's.
